

Leading Manufacturer and Supplier of Stainless Steel Products

Stainless Steel Fittings | Fasteners | Racer Valves | Special Alloys

Company Profile

Asiad Steel Industries is a reputed manufacturer and global supplier of high-performance stainless steel and alloy-based solutions. With a strong foundation built on quality and innovation, we serve key industrial sectors including Oil & Gas, Petrochemicals, Dairy & Food Processing, Marine, Paper Mill, Construction, and Pharmaceuticals.

We are also a trusted supplier of precision-engineered industrial valves under the Racer brand, manufactured for reliable performance in demanding fluid control applications. Our commitment to engineering excellence and strict compliance with international standards has made us a trusted name in both domestic and international markets.

Built to Standards. Delivered with Care.

More than manufacturing—it's a commitment to every connection.

✓ **34+ Years of Manufacturing Excellence**

Decades of experience in delivering reliable and precision-engineered components.

✓ **ISO 9001:2015 Certified Processes**

Strict adherence to international quality management systems.

✓ **Advanced Quality Testing & Machining**

In-house testing facilities and CNC-driven manufacturing ensure accuracy and consistency.

✓ **Custom Engineering**

Tailored solutions engineered to meet your exact project specifications and performance requirements.

✓ **Certified Materials**

All products comply with ASTM, ASME, DIN, and other global standards.

✓ **Global Supply with Timely Delivery**

Efficient production and dispatch systems to meet deadlines worldwide.

OUR PRODUCT RANGE

We deliver high-performance components trusted across industries for reliability, precision, and durability.

01 Fasteners

Stainless steel bolts, nuts, washers, and screws for structural and industrial strength connections.

Material: Stainless Steel, Carbon Steel, Alloy Steel, Aluminium, Copper, Titanium, etc

Types: Bolts, Nuts, Washers, Screws, Studs, Anchors, Circlips

02 Fittings

Precision-engineered fittings are engineered for seamless and leak-free fluid transfer systems. Ideal for piping assemblies across oil & gas, chemical, and general industrial use.

Material: Stainless Steel, Carbon Steel, Alloy Steel, Brass, Copper, etc

Types: Socket Weld Fittings, Threaded Pipe Fittings, Butt weld Fittings, Bar Stock Threaded Pipe Fittings, Investment Casting Fittings, Instrument Fittings

03 Racer Valves

Precision-crafted industrial valves under the Racer brand, built for smooth flow control and long-lasting performance.

Material: Stainless Steel, Carbon Steel, Alloy Steel, Aluminium, Copper, Titanium, etc

Types: Bolts, Nuts, Washers, Screws, Studs, Anchors, Circlips

04 Dairy Fittings & Valves

Hygienic fittings and valves engineered for sanitary flow systems in dairy and food processing. Easy to clean and corrosion-resistant, ensuring safety and compliance.

Material: Stainless Steel 304 / 316L

Types: Tee, Bends, Reducer, Pipe Clamps, SMS Union, Dairy Valves, Two-Way Plug Valves, Three-Way Plug Valves, Butterfly Valves, NRV, FRV, Dairy Filters

05 Tri-Clover Fittings & Valves

Clamp-based fittings and valves for secure, hygienic, and quick connections in process systems. Widely used in pharmaceuticals, food processing, biotechnology, and chemical industries.

Material: Stainless Steel 304 / 316L

Types: TC Clamps, TC Union, TC Bend, TC Tee, TC Ferrule, TC Ball Valves, TC Butterfly Valves

06 Flanges

Robust flanges including slip-on, weld neck, blind, and custom designs for leak-proof joints. Available in multiple pressure classes and sizes to meet diverse application needs.

Material: Stainless Steel, Carbon Steel, Alloy Steel, Aluminium, Titanium, Nickel, Copper, etc

Types: Table D Flanges, Table E Flanges, Table F Flanges, Table H Flanges, Slip-On Flanges, Socket Weld Flanges, Blind Flanges, Weld Neck Flanges, Threaded Flanges, Lap Joint Flanges

07 ERW / Seamless Pipes

High-strength ERW and seamless pipes for structural, industrial, and fluid transport use. Available in various shapes and thicknesses for diverse engineering needs.

Material: Stainless Steel, Carbon Steel, Alloy Steel, etc

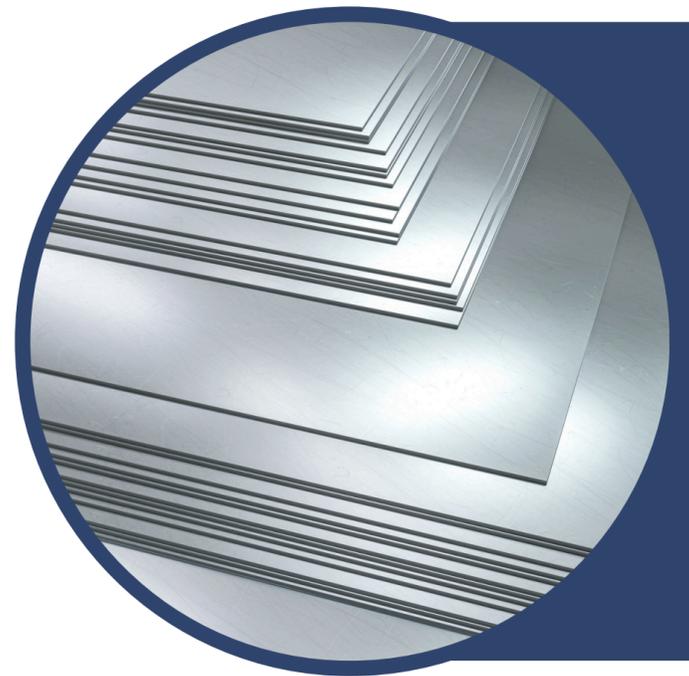

Types: Round Pipe, Square Pipe, Rectangular Pipe

08 Sheets / Plates

Durable flat-rolled materials used in fabrication, structural, and pressure applications. Offered in multiple thicknesses, finishes, and material grades.

Material: Stainless Steel, Carbon Steel, Alloy Steel, Aluminium, Titanium, Nickel, Copper, etc

Types: Sheets, Plates, Strips etc

09 Rods / Bars

Solid metal bars with high machinability and strength for industrial and structural applications. Ideal for shafts, fasteners, and precision components.

Material: Stainless Steel, Carbon Steel, Alloy Steel, Aluminium, Titanium, Nickel, Copper, etc

Types: Round Bar, Hex Bar, Square Bar

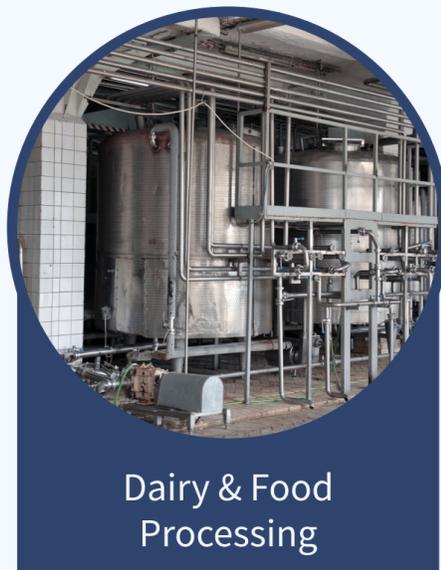

INDUSTRIES WE SERVE

Asiad Steel Industries proudly caters to a wide spectrum of industries with reliable, precision-engineered solutions. Our products are trusted in both standard and highly specialized applications worldwide.

We serve industries like:

Oil & Gas

Dairy & Food Processing

Construction & Infrastructure

Pharmaceutical

Petrochemicals & Refineries

Marine & Offshore

Paper Mill

Chemical

We are always with you for your Needs

From inquiry to delivery, our team ensures a seamless, high-quality experience, tailored to your exact needs.
